

Free Medical Day

19-4-2025

The Community Service Committee at the Faculty of Pharmacy continues to carry out its activities and community initiatives aimed at promoting social solidarity and enhancing health awareness among members of the community, in collaboration with the Faculty of Nursing and the Faculty of Allied Medical Sciences

In this context, the committee, under the supervision of the committee's rapporteur Dr. Manal Ayash, organized a free medical day on Saturday, April 19, 2025, at Al-Sabila 2 Schools in the Shafa Badran area.

The event included a free pharmacy that offered a large and diverse selection of medications, generously provided by our supporting partners from pharmaceutical factories and warehouses. These medications were dispensed to patients based on prescriptions issued by doctors from a variety of clinics, including:

General Medicine	Diabetic Foot Clinic
Internal Medicine	Nutrition
ENT (Ear, Nose, and Throat)	Physiotherapy
General Surgery	Nursing
Emergency	Laboratory Services
Dentistry	

More than 230 patients were received by the various clinics and pharmacy, in a day filled with dedication, volunteerism, and collaboration among healthcare professionals.

The Committee extends its sincere thanks and appreciation to all supporters and participants who contributed to the success of this event, and it looks forward to more initiatives that serve our community in all its diversity. Our Partners in the Pharmaceutical Industry :
