

Title: JOAI

Date: 29\1\2025

Description: The Faculty of Information Technology at Applied Science University has announced the launch of the first edition of the Jordanian Olympiad in Artificial Intelligence, targeting Jordanian school students from ninth grade to Tawjihi (12th grade). The International Olympiad in Artificial Intelligence is a new global competition supported by Google and the Mohamed bin Zayed University of Artificial Intelligence. It tests high school students' skills in three AI domains: machine learning, computer vision, and natural language processing. This is the first competition of its kind to provide a platform celebrating the next generation of innovators and developers worldwide in this field. The top four students in Jordan have qualified for the International Olympiad in Artificial Intelligence (IOAI), which will be held in the People's Republic of China from August 2 to 9, 2025.
