

Title: AFPC 14

Date: 30\4\2025

Description: Applied Science Private University concludes the 14th edition of its annual competition, the Arab Future Programmers Contest. The Future Programmers Contest is a scientific competition in the field of computer programming using various programming languages, aimed at our students from Jordanian and Arab schools. The competition seeks to promote academic excellence and elevate students' skills in computer programming. It was launched to uncover their talents, develop them, and enable students to apply what they have learned in official curricula through a competitive and scientific environment. The competition highlighted young Arab talent in programming, encouraged academic excellence through tiered awards and scholarships, and promoted STEM education and regional collaboration among school students.
